Third Party Vendor Request for Certification

XML Submission

Each Third Party Vendor must submit a sample of their XML to CiviTek for review. The Third Party Vendor is required to submit XML samples to each of the case types they wish to be certified in. The vendor is also required to submit XML in each filing path (New and/or Existing). Upon this review, vendors will receive notification that the XML submitted has been correctly developed. Have XML submissions for each case type and filing path been received and approved by CiviTek?

- Yes
- No

User Credentials

Each Third Party Vendor must have active credentials to the Florida Courts E-Filing Portal QA or TEST environment. Have those credentials been provided by CiviTek?

- Yes
- No

Which environment?

- TEST
- QA
- Both

Established Connectivity

Connection must be established between the vendor's application and Florida Courts E-Filing Portal. The connection will be between the vendor's software and the QA and TEST environments. Has connection been established between the vendor's software application and the Florida Courts E-Filing Portal?

- Yes
- No

Which environment?

- TEST
- QA
- Both

Filing Status Retrieval

There are two methods of retrieving statuses from the Florida Courts E-Filing Portal. The Third Party Vendor can use the FilingReviewCompleteResult (polling service) to poll the portal for status updates. The other option would be to use the NotifyFilingReviewComplete (status returned by portal service) to receive the status from the portal. Which retrieval method will be utilized?

- FilingReviewCompleteResult (polling service)
